GERMAN AIRCRAFT LOSSES

JANUARY 1941 - DECEMBER 1941

ISSUED BY
AIR MINISTRY, A.H.B.6

14 FEBRUARY 1950

The attached statistics have been compiled from original records kept by the Quartermaster General's Department of the German Air Ministry.

The care with which the records were kept is apparent from the way in which entries were amended at a later date (at times as much as 2 years afterwards) in the light of further information, and from the fact that even every minor accidents were recorded in detail.

Many losses were of course not entered in the records until some time after the occurrence, and the figures now prepared are therefore based on a scrutiny of the documents up to the end of 1942.
